COMMENTS FROM THE TOWN MANAGER'S OFFICE

On Monday at 11:30 A. M. the fire alarm starting blowing. There was a quick response from the firemen, but as there had been no call come in on the Red Network phone it appeared that there was a false alarm. Investigation revealed that linemen from the Central Maine Power Company were working on Tyler Street lines and inadvertently crossed the Red Network wires, thereby setting off the false alarm.

Evergreen sewer project progressed very well last week and is nearly complete. As soon as the project is completed figures of the cost of construction will be published.

A pump is being installed to run a test on the newly driven well at West Bethel to determine the capacity.

An appropriation was made at the annual town meeting to paint the outside rear of the Community Room Building. The work has been let to Lewis Sargent to be done on an hourly basis. The work to be done this fall.

1959 taxes received through to Sept. 28th total \$41,381.75. The total tax commitment is \$180,956.16. This shows that up to the present time 23% of the tax commitment has been paid. At the same time last year 28% had been paid.

Sincerely,
Harold L. Beatty

Gould Academy Wins Over Lisbon 18-0

Gould opened its 1959 season with an 18-0 victory over Lisbon High, thus stopping the invaders' victory string at two games. It was a team effort on the part of the winners with Pete Swallow coming through with all three touchdowns. The first TD was from the one yard line climaxing a 58 yard drive which included 4 first downs. It was the first time Lisbon had been scored on this season.

The second score came early in the 4th period on a 41 yard drive with Swallow, White and Burnham making nice gains. Swallow scored from 6 yards out. Later in the quarter Lisbon was held for downs on their own 22 yard line. Smith carried for 6 yards; Rice made 3, and with less than a yard to go on their third down, Doug Rice pulled a surprise pass that left Swallow all by himself in the end zone for the final counter.

The losers put up a great fight, but the Huskies gave them few breaks and took advantage of two Lisbon fumbles.

Gould made 11 first downs to 5 for Lisbon. The Huskies passed only 4 times, but one was good for a 12 yard TD. Lisbon passed 9 times; three were complete for a total of 23 yards, and one was intercepted.

"OILTOWN, U. S. A." TO BE SHOWN AT NORWAY, OCT. 3 AND W. PARIS, OCT. 4

Evangelist Graham amazed the entertainment and religious worlds when he produced the world's first Christian western film, "Mr. Texas."

RESOLUTIONS OF RESPECT. Whereas, it has pleased our Heavenly Father to call the roll once more and taken from our midst to the Temple above, our beloved Sister Carrie French and

Whereas, in her passing, Sister French was a charter member of Naccomi Temple, Bethel, and gave a life of service to it, occupying the various offices. At the merging of her Temple with Mishemokwa, she was always ready to fill any office or help in any way the Order she loved so well, never losing her interest, even after she was unable to attend the meetings.

Therefore, be it resolved that we extend to her daughters and their families our deepest sympathy.

Resolved, that a copy of these Resolutions be sent to them, also one to the Bethel Citizen for publication and a page in our records be dedicated to her memory.

"And so she came to the end of the road, That had meant so much to her, And at the end of that far-dusty road, She left a memory. And so this memory we shall keep Tied with the strings of our hearts, For though the road was level or steep, She tried to do her part."

Addie L. Saunders Dorothy R. Ogden Selma Chapman Committee on Resolutions Sept. 22, 1959.

ON DISPLAY! FRIDAY! SPACIOUS! POISED! BEAUTIFUL! LIVELY!

Elegant Impala 4-Door Sport Sedan—one of 16 spanking new Chevrolets you can choose from.

THE SUPERLATIVE '60 CHEVY

This is the one that says '60 like no other car. From its clean-thrusting grille to its dapper rear deck, there's so much that is new and different about this superlative Chevrolet it stands out from the rest like a fresh-minted coin. And you'll be just as wide-eyed over what's inside—the relaxing roominess, tasteful trim, hushed elegance, all comfortably cradled by Full Coil springs at all four wheels. Yet, sumptuous as this new Chevy is, you'll find new economy of operation, new dependability, new longer life. Here, then, we're confident both you and your budget will joyously agree, is the nearest to perfection a low-priced car ever came!

Here's the car that introduces a whole new decade of design—with so much that's new and different the other ones can only hope to come close.

It's the superlative '60 Chevrolet—with new space inside, new spirit under the hood, new splendor in every clean-etched line.

Freshly shaped contours rake back from the unified new grille to the jaunty rear deck, fitted with craftsmanship you'd expect only on the most expensive makes. Inside, there's room to sprawl in, room to sit tall in—generously provided by Chevy's sole-wide seats and

extra margin of hat space. And there's even more leg room for the man in the middle—thanks to the way Chevrolet engineers have shaved down the transmission tunnel.

Out on the road, as Chevy's Full Coil ride will persuade you most gently, there's not a car near the price that comes close to the hushed comfort of this one. And, adding to your sense of silence and solidity are thicker, newly designed rubber body mounts that do an even more efficient job of filtering out road shock, tire hum and vibration.

Quiet, quick-responding power is provided by a choice of two standard engines—Chevy's famed Hi-Thrift 6 and a new Economy Turbo-Fire V8 that gets up to 18% more miles out of a gallon of regular while delivering greater engine torque at normal speeds.

Chevy's accent on comfort and convenience even extends back to its easier-to-load (and tremendous) luggage compartment. You'll also find a convenient new parking brake that automatically returns to normal height after application, a new clutch linkage that filters

out even the smallest engine impulses more effectively than ever and a trim new two-toning mold that's available on all 16 fresh-minted models.

But, impressive as all this may look in print, there's really only one way to tell how near to perfection this superlative '60 Chevrolet actually comes—and that's to drop in on your dealer and drive one!

QUIET REVOLUTION! ON DISPLAY FRIDAY! HOORAY! SMALL WONDER!**THE REVOLUTIONARY Corvair**

BY CHEVROLET

There's nothing like a new car—and no compact car like this de luxe Corvair 700.

Here's the car created to conquer a new field—Chevrolet's low-priced compact Corvair.

The product of nine years of research and development at the auto industry's most advanced facilities, it's America's first truly compact, economical car that retains the ride and 6-passenger comfort you're used to in a big one.

The key to this small miracle: America's first and only modern rear-mounted aluminum engine—a lightweight 6 that's so revolutionary it can be packaged with the transmission and drive gears as one compact unit.

By putting the engine in the rear, Chevrolet has made the floor practically flat, front and rear. There's plenty of foot room for everybody, including the passengers in the middle.

Shifting engine weight to the rear also makes for smoother, easier compact car handling and gives glued-to-the-road traction on ice, mud or snow.

Corvair's size—some 6 inches lower, 2½ feet shorter and 1,200 pounds lighter than conventional sedans—makes it a joy to tuck through busy streets, a pleasure to park (no need for power assists). Its revolutionary Turbo-Air 6 gets up to 30½ more miles on a gallon of regular (a real magician on mileage). And, because the

America's only car with an airplane-type horizontal engine! America's only car with independent suspension at all 4 wheels! America's only car with an air-cooled aluminum engine!

The engine's in the rear where it belongs in a compact car!

engine's air-cooled, you never have to fuss with antifreeze, you get quicker warmup with less wear on parts even on the coldest mornings (even heat for passengers comes quicker—almost instantly—from an airplane-type heater!).

Yet, wonderfully practical as all this sounds, you'll find the most practical thing of all about this new Corvair is its remarkably low price. Your

dealer's the man to see for all the short, sweet details.

REVOLUTIONARY TURBO-AIR 6
Gets up to 30½ more miles on a gallon, needs no antifreeze, provides quicker warmup with less wear on parts.

ONE-PACKAGE POWER TEAM
Wraps rear engine, transmission and differential together into one compact lightweight unit. Takes less room, leaves you more.

STYLING—PURE AND SIMPLE

Clean, uncluttered lines shape both 4-door models—the deluxe Corvair 700 and the standard Corvair. Each has its own distinctive trim, and you get more visibility area than in many full-sized cars.

FOLD-DOWN REAR SEAT*

Works easily, instantly, adding to Corvair's versatility by enlarging rear seat cargo space to 17.0 cu. ft.

FLAT FLOOR

Corvair is America's only compact car with a practically flat floor, the only one with the kind of relaxing room that U.S. motorists are used to.

UNITED BODY BY FISHER

Does away with conventional frame, incorporating all structure into a rigid body-frame unit that gives you more inside room with less weight.

UNDER-HOOD LUGGAGE COMPARTMENT

Trunk's up front (like an elephant's) where it's convenient for groceries, luggage.

4-WHEEL INDEPENDENT SUSPENSION

*There's no conventional axle—front or rear. Wheels, cushioned by coil springs, take bumps independently of each other, for smooth, road-hugging ride.

*Optional at extra cost
